# Heavy Duty Odor Neutralizer with Mango Scent

## DESCRIPTION

Halt Mango is a concentrated, pleasantly scented heavy duty odor neutralizer. Halt acts to chemically neutralize malodor components by reacting with the odor producing source and eliminating it, thus preventing future odors. When sprayed, the liquid breaks up into tiny droplets which quickly seek out and react with the malodor molecules. Use in solution to clean or rinse hard surfaces. Halt deodorizes areas with a pleasant mango scent in place of the offending odors.

## DIRECTIONS

**For Hand Spraying:** Dilute Halt Mango with 10 – 12 oz. per gallon of water. Spray solution directly with a fine mist in the air or directly and thoroughly onto the source of malodor. Amount sprayed can be varied according to the odor problem.

**For Mopping:** Add 1 – 2 oz. of Halt Mango per gallon of mop bucket cleaning solution and mop onto surface.

**For Carpet Use:** Add 1 – 2 oz. of Halt Mango per gallon to each gallon of diluted shampoo solution.

**For Laundry:** Add 1 – 2 oz of concentrate to the rinse cycle or add with softener to dispenser.

**For Smoke Odors:** Apply thoroughly in a fine mist and spray on all exposed surfaces.

**For Holding Tanks:** Add directly to holding tank. Use approximately 1 – 2 oz. for every 10 gallons of holding tank capacity.

**For Landfills & Garbage Areas:** Dilute 1 part concentrate with up to 200 parts water and spray area daily. Adjust concentration as necessary.

## APPLICATIONS

Automobiles	Carpets	Laundry	Bedding	Clothing
Floor Mopping	Drains	Kennels	Lockers	Air Filters
Schools	Hotels	Factories	Hospitals	Nursing Homes
Bed Pans	Sludge Beds	Incinerators	Lift Stations	Landfills
Waste Holding Tanks	Sewage Plants	Sumps	Septic Systems	Recreational Vehicles
Garbage Cans	Dumpsters	Restrooms	Toilets & Urinals	Sinks

## ADVANTAGES

- ❖ **Neutralizes Odors** – Halt Mango chemically neutralizes odor source, not just a masking fragrance
- ❖ **Long Lasting** – Leaves a pleasant fragrance that enhances and refreshes areas
- ❖ **Multi-Purpose** – Halt Mango can be applied anywhere malodors are a problem
- ❖ **Concentrated** – Provides excellent use dilution for most economical use
- ❖ **Fast Acting** – Saves labor while promoting a clean environment

## TYPICAL PRODUCT SPECIFICATIONS

Appearance	Clear liquid
Scent	Mango
pH	9.5
Weight, per U.S. gallon	8.4 lbs.
Specific gravity	1.0
Viscosity	Thin
Foam	Low
Flashpoint	None
Deodorizing	Excellent
Rinsability	Excellent
Stability	Excellent
Solubility	Complete
DOT shipping	Nonhazardous
